

Table SII. Clinical and histological characteristics of trichoblastic tumours with locally invasive growth reported in the literature

Cases	Authors	Date	Age, years/ sex	Location	Size, mm	Diagnosis	Bland tumour cells	Papillary mesenchymal bodies	Mitotic figures	Depth	Connection to the epidermis	Follicular stroma	Prognosis
1	Altman et al.	1995	62/F	Chin	25x25	Plaque trichoblastic fibroma	1	1	1	ST	0	1	No evidence of recurrence during 18 months
2			61/F	Cheek	13x7	Plaque trichoblastic fibroma	1	1	1	ST	0	1	
3			66/F	Nose	25x2	Plaque trichoblastic fibroma	1	1	1	M	0	1	
4	Cowen et al.	2000	47/M	Chin	25x5	Unusually aggressive trichoblastoma	1	1	1	ST	-	1	No evidence of recurrence during 18 months
5	Beguín et al.	2001	38/M	Cheek	2	Plaque trichoblastic fibroma	1	1	1	M	0	1	No evidence of recurrence during 10 months
6			53/F	Lip	21x10	Trichoblastic carcinoma	1	1	0	M	0	1	NA
7	Rofagha et al.	2001	74/M	Lip	16x7	Trichoblastic carcinoma	1	1	1	ST	-	1	NA
8	Ahyan et al.	2006	73/F	Nasal alar	10	Trichoblastic carcinoma	1	1	1	M	-	1	NA

1: present; 0: absent; -: not mentioned; NA: not available; ST: subcutaneous tissue; M: muscle tissue; F: female; M: male.
