

**Table SI. Validation of the used 23S sequencing assay (1) of *M. genitalium* in our laboratory by testing 5 isolates with known 23S status as determined at another laboratory**

Sample number	Other laboratory 23S genotype	Our laboratory 23S genotype
1	Mutant	Mutant (A2071G)
2	Wild type	Wild type
3	Mutant	Mutant (A2071G)
4	Mutant	Mutant (A2071G)
5	Mutant	Mutant (A2072G)
