## I Still Need More Guest Editors in Forum

I'm looking for volunteers interesting to spread information among the Nordic dermatovenereologists. I would like to invite you to become a Guest Editor in Forum! For at least two of the issues next year as well as in the forthcoming years, it would be valuable to let someone else handle the issue: make plans for themes, invite authors, plan the content. Are you interested, please let me know.

What's inside this issue:

- Also in this issue we have a report from one of our Nordic universities: Odense University Hospital in Denmark.
- An educational review on Livedo reticularis and Livedo racemosa
- An interesting view on ticks is given in a review form - what to do, what to be afraid of, or not, etc.
- Dissertations as always
- A quiz on a growing wound and CME

When receiving information about this issue you have already had a hopefully Merry Christmas and I now wish you all the best for 2019!

or
