^aStatistically significant disagreement (absolute value of RP/RC ≥ 0.1 and 95% CI does not include 0), marked in bold.

^bTendency towards a non-negligible disagreement (absolute value of RP/RC ≥ 0.1 and asymmetrical 95% CI approximately 0);

^cStatistically significant but negligible disagreement (absolute RP/RC < 0.1 and 95% CI does not include 0)

^dNegligible statistically not significant disagreement (absolute RP/RC ≥ 0.1 and symmetrical 95% CI approximately 0);

Absolute values of RP/RC ≤ 0.01 are signed value 0. No disagreements in RP, RC.

95% CI: 95% confidence interval; PA: percentage of agreement, RP: relative position; RC: relative concentration.
