

Table SII. Current Care Guidelines (CCGs) published during the years 2012–2017 classified and listed according to International Classification of Functioning disability and Health (ICF) and the number of International Statistical Classification of Diseases and Related Health Problems (ICD) categories. Number of rehabilitation-related evidence summaries is presented in classes A–D (level of evidence, A=high, B=moderate, C=low, D=very low) before and after the development project
