Supplementary material to article by C. Dannepond et al. "Serum Infliximab Concentrations in Psoriatic Patients Treated with Infliximab: A Systematic Review"

Fig. S1. Selection of articles: flow chart.

Identifications
- 4,336 articles in databases:
  - MEDLINE: n=1,011
  - CENTRAL: n=53
  - EMBASE: n=3,257
  - LILACS: n=15
  - Inter-databases duplicates\(^1\), n=603

Selection
- Articles identified\(^1\), n=3,733
  - Articles excluded on title\(^1\), n=1,559
  - Articles selected on title\(^1\), n=2,174
  - Articles excluded on abstract\(^2\), n=1,945

Eligibility
- Articles selected on abstract and evaluated on full text for eligibility\(^2\), n=229
  - Articles excluded on full text:
    - Absence of measurements of serum IFX concentration, n=218
    - Article duplicated, n=1

Inclusions
- 8 original articles
- 2 duplicated articles:
  - sub-part of an original article (n=1)
  - summary article of 2 original articles (n=1)

\(^1\)steps performed by one author (CD); \(^2\)steps performed independently by two authors (CD, MS)
