

Table SI. Therapeutic schemes and tumour evaluation time concordance

	Week	0	1	2	3	4	5	6	7	8	9	10	11	12
Nivolumab	Infusions	1		2		3		4		5		6		7
Pembrolizumab, Ipilimumab, Nivolumab + Ipilimumab	Infusions	1		2		3		3		4				5
	Medical Imaging	x												x

The table presents the time concordance between the different treatment regimens and the tumour response assessment. At weeks 1 and 12, radiological-clinical tumour evaluation is made before treatment infusion.
