

Since this is a very extensive table, the format and content has not been edited by ActaDV.

Table SI. Reported cases of this association and their principal characteristics

Author	Year	Case number	Sex/Age (years)	Type of lupus	Associated findings	Direct immunofluorescence	Microthrombi (H&E)	Antiphospholipid antibodies	History of thrombotic events	Criteria APS	Site involved	Time from lupus diagnosis to onset of anetoderma (years)	APL + at LES diagnosis	Time ongoing lesions (years)
Venencie et al. (11)	1984	1	35/F	SLE	Acquired circumscribed cutis laxa, elevated $\alpha 1$ antitripsine	Positive lupus band test	No	False (+) VDRL	No	No	Face, arms, neck, forearms, thighs	No reported	No	No reported
Stephansson et al. (3)	1991	2	F	SLE		No reported	Yes	3/5 ACA (+) 4/5 LAC (+), 2/5 negative	2/5 History of venous thrombosis	2/5 cases	Upper arms	No reported	No reported	No reported
Stephansson et al. (3)	1991	3	F	SLE		No reported	Yes				Upper arms	No reported	No reported	No reported
Stephansson et al. (3)	1991	4	F	SLE		No reported	Yes				Forehead	No reported	No reported	No reported
Stephansson et al. (3)	1991	5	M	SLE		No reported	Yes				Trunk	No reported	No reported	No reported
Stephansson et al. (3)	1991	6	M	SLE		No reported	Yes				Trunk	No reported	No reported	No reported
Disdier et al. (12)	1994	7	28/F	SLE	Mixed cryoglobulinaemia, Raynaud syndrome, livedo reticularis	Negative at affected skin	No	ACA (+), LAC (+), antiB2GPI (+)	No	No	Shoulder, neck, flanks, limbs	0	Yes	10
Stephansson et al. (13)	1995	8	25/F	SLE	Glomerulonephritis, livedoid vasculitis, Liebman-Sachs endocarditis	No reported	Yes	ACA (+), False (+) RPR	Deep vein thrombosis, strokes	Yes	Arms, trunk		No	No reported
Montilla et al. (7)	2000	9	20/F	SLE		No reported	No	ACA (+) antiB2GPI (+) False (+) RPR	No	No	Arms, trunk	0	Yes	10
Álvarez-Cuesta et al. (6)	2001	10	37/M	SLE	Pericarditis, (+) proliferating cell nuclear antigen	Linear IgM deposits at dermoepidermal junction of unexposed involved skin and IgG at the basement membrane of unexposed and uninvolved skin	No	ACA (+), LAC (+)	No	No	Arms, trunk	0	Yes	10
Fernández-Galar et al. (8)	2003	11	30/F	SLE	Membranous glomerulonephritis	Subepidermal linear deposits of IgA and granular deposits of IgG, IgM, C3 and C1q. Perivascular deposits of IgM and C3	No	ACA (+)	No	No	Trunk, limbs	9	No reported	0.5
Sparsa et al. (10)	2003	12	24/F	SLE	Livedoid vasculitis, Evans syndrome, nephritis, pericarditis, pneumonitis, Raynaud syndrome	No reported	No	ACA (+)	Strokes	Yes	Arms, trunk	No reported	No reported	No reported
Sparsa et al. (10)	2003	13	28/F	SLE		No reported	No	LAC (+), antiB2GPI(+) False (+) test for syphilis	No	No	Arms, trunk	No reported	No reported	No reported
Sparsa et al. (10)	2003	14	35/F	SLE		No reported	No	ACA (+)	No	No	Arms, trunk	No reported	No reported	No reported
Bilen et al. (1)	2003	15	33/F	SLE	Livedo reticularis,	No reported	No	ACA (+) False	8 Miscarriages	Yes	Face,	0	Yes	8

				glomerulonephritis class IV				(+) RPR				shoulders, back chest		
Marzano et al. (14)	2004	16	F	SLE + LEP	Overlying DLE lesions, fever, arthritis, Raynaud phenomenon	Granular IgM and C3 deposits along the dermoepidermal junction in LEP and anetoderma lesions	No	ACA (+), LAC (+)	No	No	Proximal limbs, face, neck	2 to 9	No reported	3
Sabio et al. (9)	2004	17	30/M	SLE	Arthritis, alopecia areata	No reported	No	ACA (+)	No	No	Arms, trunk	13	No reported	17
Venhoff et al. (15)	2005	18	29/F	SLE	Arthritis	No reported	No	APA (+)	Deep vein thrombosis	Yes	Arms, trunk	0	Yes	5
Funabiki et al. (16)	2008	19	18/F	SLE + LEP	Alveolar haemorrhage, nephropathy	No reported	No	LAC (+)	Cerebral infarction	Yes	Neck	11	Yes	0.5
Haider et al. (4)	2012	20	42/F	SLE		Linear dermoepidermal deposition of IgM(+++), C3(+++), C1q(+++), IgG(++) and IgA(+)	No	Negative	No	N/A	Left Arm, trunk	0	N/A	4
Jeong et al. (5)	2014	21	20/F	SLE		No reported	Yes	Negative	No	N/A	Face, trunk	3	N/A	1
Fan Di Xia et al. (2)	2017	22	20/F	SLE	Jacoud arthropathy	No reported	No	ACA (+)	No	No	Elbows, knuckles, distal interphalangeal joints	4	No	1
This case	2018	23	43/M	SLE		Granular IgG(+++), IgM(++) and C3(+++) deposits in the basement membrane and blood vessels of involved skin.	No	LAC (+), antiB2GPI(+)	No	No	Left arm, trunk	0	No	1

ACA: Anticardiolipin antibodies; antiB2GPI: anti B2 glycoprotein antibodies; APA: antiphospholipid antibodies; C: complement; DIF: direct immunofluorescence; DLE: discoid lupus erythematosus; F: female; Ig: immunoglobulin; LAC: lupus anticoagulant; LEP: lupus panniculitis; M: male; N/A: not applicable; RPR: rapid plasma reagin test; SLE: systemic lupus erythematosus.
