

Data capture form conjunctivitis during dupilumab treatment

symptoms

redness	<input type="radio"/> yes	<input type="radio"/> no	<input type="radio"/> right eye	<input type="radio"/> left eye
tearing	<input type="radio"/> yes	<input type="radio"/> no	<input type="radio"/> right eye	<input type="radio"/> left eye
itch	<input type="radio"/> yes	<input type="radio"/> no	<input type="radio"/> right eye	<input type="radio"/> left eye
pain	<input type="radio"/> yes	<input type="radio"/> no	<input type="radio"/> right eye	<input type="radio"/> left eye
photofobia	<input type="radio"/> yes	<input type="radio"/> no	<input type="radio"/> right eye	<input type="radio"/> left eye

Ophthalmological examination

Bulbar conjunctivitis	<input type="radio"/> yes	<input type="radio"/> no	<input type="radio"/> right eye	<input type="radio"/> left eye
	<input type="radio"/> mild	<input type="radio"/> moderate	<input type="radio"/> severe	
Palpebral conjunctivitis	<input type="radio"/> yes	<input type="radio"/> no	<input type="radio"/> right eye	<input type="radio"/> left eye
	<input type="radio"/> mild	<input type="radio"/> moderate	<input type="radio"/> severe	

Other relevant information concerning conjunctivitis: _____

Eyelid ; blepharitis	<input type="radio"/> yes	<input type="radio"/> no	<input type="radio"/> right eye	<input type="radio"/> left eye
	<input type="radio"/> mild	<input type="radio"/> moderate	<input type="radio"/> severe	

Other relevant information concerning blepharitis: _____

Eyelid; Meibomian gland dysfunction	<input type="radio"/> yes	<input type="radio"/> no	<input type="radio"/> right eye	<input type="radio"/> left eye
	<input type="radio"/> mild	<input type="radio"/> moderate	<input type="radio"/> severe	

Other relevant information concerning Meibomian gland dysfunction : _____

Limbus; Limbal oedema	<input type="radio"/> yes	<input type="radio"/> no	<input type="radio"/> right eye	<input type="radio"/> left eye
	<input type="radio"/> mild	<input type="radio"/> moderate	<input type="radio"/> severe	
Limbitis	<input type="radio"/> yes	<input type="radio"/> no	<input type="radio"/> right eye	<input type="radio"/> left eye
	<input type="radio"/> mild	<input type="radio"/> moderate	<input type="radio"/> severe	
Limbal stem cell deficiency	<input type="radio"/> yes	<input type="radio"/> no	<input type="radio"/> right eye	<input type="radio"/> left eye
Hurricane keratopathy	<input type="radio"/> yes	<input type="radio"/> no	<input type="radio"/> right eye	<input type="radio"/> left eye

Other relevant information concerning limbus: _____

Cornea; cornea punctata	<input type="radio"/> yes	<input type="radio"/> no	<input type="radio"/> right eye	<input type="radio"/> left eye
	<input type="radio"/> mild	<input type="radio"/> moderate	<input type="radio"/> severe	
superficial vascularisation	<input type="radio"/> yes	<input type="radio"/> no	<input type="radio"/> right eye	<input type="radio"/> left eye
	<input type="radio"/> mild	<input type="radio"/> moderate	<input type="radio"/> severe	
stromal (deep) vascularisation	<input type="radio"/> yes	<input type="radio"/> no	<input type="radio"/> right eye	<input type="radio"/> left eye
	<input type="radio"/> mild	<input type="radio"/> moderate	<input type="radio"/> severe	

Other relevant information concerning cornea: _____

Other relevant clinical information: _____

Referral to cornea specialist in case of doubt concerning limbal pathology

Filled in by _____ophthalmologist

Date _____
