

**Table SI. List of treatments, corresponding classifications and Anatomical Therapeutic Chemical (ATC) codes**

Treatment	Code
<i>Biologics</i>	<i>ATC code</i>
Secukinumab (Cosentyx)	L04AC10
Etanercept (Enbrel)	L04AB01
	L04AA11
Infliximab (Remicade) <sup>a</sup>	L04AB02
	L04AA12
Ustekinumab (Stelara)	L04AC05
Adalimumab (Humira)	L04AB04
	L04AA17
Efalizumab (Raptiva)	L04AA21
Ixekizumab (Taltz)	L04AC13
Brodalumab (Siliq)	L04AC12
Guselkumab (Tremfya)	L04AC16
<i>Apremilast</i>	<i>ATC code</i>
Apremilast (Otezla)	L04AA32
<i>Conventional systemics</i>	<i>ATC code</i>
Methotrexate	L01BA01
	L04AX03
Cyclosporine (Sandimmun)	L04AD01
	L04AA01
Acetrin (Neotigason)	D05BB02
Hydroxikarbamid (Hydrea)	L01XX05
Tioguanin (Lanvis)	L01BB03
Alfakalcidol (Etalpa)	A11CC03
Alitretinoin capsules	D11AX19
Fumaric acid	D05AX01
Methoxsalen	D05AD02
	D05BA02
<i>Phototherapy</i>	<i>Procedure code</i>
Bucky (Grenz) rays	DQ009
PUVA (perioral)	DQ010
PUVA (bath)	DQ011
UVA	DQ012
UVA1	DQ013
UVB	DQ014
UVB and UVA	DQ016
Other specified light treatment of the skin	DQ024
<i>Non-systemic</i>	<i>ATC code</i>
All others	All others

<sup>a</sup>Infliximab is administered through intravenous infusion in hospital. The Swedish Prescribed Drug Registry only includes prescription drugs, and it is expected that there were data gaps related to infliximab, as it is usually provided to patients by requisition. No adjustment was made for missing data on hospital-administered drugs.

PUVA: psoralen plus ultraviolet-A; UVA: ultraviolet A; UVB: ultraviolet B.
