

ACTA  
DERMATO-VENEREOLOGICA

VOLUME 94  
2014

The Society for  
the Publication of Acta Dermato-Venereologica

## INDEX VOL. 94, 2014

## REVIEWERS

*The following persons have generously given time and effort in critically reviewing manuscripts submitted for publication. I thank them all for their excellent help.*

Anders Vahlquist  
Editor-in-Chief

- Ossama Abbas, Beirut, Lebanon  
Olivier Aerts, Antwerp, Belgium  
Tove Agner, Copenhagen, Denmark  
Magnus S. Ågren, Copenhagen, Denmark  
Masashi Akiyama, Nagoya, Japan  
Tasuku Akiyama, Davis, USA  
Haytham Al Rawi, Nottingham, UK  
Mauro Alaibac, Padua, Italy  
Andrew F. Alexis, New York, USA  
Mohammad Alimohammadi, Uppsala, Sweden  
Iris Amitai-Laish, Petah Tiqva, Israel  
Klaus E. Andersen, Odense, Denmark  
Chris Anderson, Linköping, Sweden  
Emiliano Antiga, Florence, Italy  
Christian Apfelbacher, Regensburg, Germany  
Satoru Arai, Kanagawa, Japan  
Giuseppe Argenziano, Naples, Italy  
Salvador Arias-Santiago, Granada, Spain  
Akihiko Asahina, Kanagawa, Japan  
Chalid Assaf, Berlin, Germany  
Iris Augustin, Heidelberg, Germany  
Philippe Autier, Lyon, France  
João Avancini, São Paulo, Brazil  
Segun Awotesu, London, UK  
Talel Badri, Tunis, Tunisia  
Anna Balato, Naples, Italy  
Flora Balieva, Stavanger, Norway  
Samuel J. Balin, Rochester, USA  
Natalia Ballardini, Stockholm, Sweden  
Nannie Bangsgaard, Hellerup, Denmark  
Wojciech Baran, Wrocław, Poland  
Richard Barton, Leeds, UK  
Veronique Bataille, Hempstead, UK  
Boris Bauer, Würzburg, Germany  
Sharon Baum, Tel-Hashomer, Israel  
Birgitta Baumert, Bonn, Germany  
Marianne Bengtson Løvendorf, Copenhagen, Denmark  
Reuven Bergman, Haifa, Israel  
Alfred Bernard, Louvain, Belgium  
Jeffrey D. Bernhard, Worcester, USA  
Marianne Berwick, New Mexico, USA  
Paul L. Bigliardi, Singapore, Singapore  
Asok Biswas, Edinburgh, UK  
Mats Bjellerup, Helsingborg, Sweden  
Katie Blasdale, Newcastle, UK  
Ulrike Blume-Peytavi, Berlin, Germany  
Wolf-Henning Boehncke, Geneva, Switzerland  
Kath M. Bogie, Cleveland, USA  
Anders Boman, Stockholm, Sweden  
Marie-Louise Bondeson, Uppsala, Sweden  
Alexandro Bonifaz, Mexico City, Mexico  
Laurence Bouillet, Grenoble, France  
Jan N. Bouwes Bavinck, Leiden, The Netherlands  
Olivier Boyer, Rouen, France  
Lasse R. Braathen, Bern, Switzerland  
Johanna M. Brandner, Hamburg, Germany  
Jochen Brasch, Kiel, Germany  
Thomas Brenn, Edinburgh, UK  
Magnus Bruze, Malmö, Sweden  
Matthias Buchner, Kiel, Germany  
Christine Bundy, Manchester, UK  
Anette Bygum, Odense, Denmark  
Claudia Bürger, Frankfurt am Main, Germany  
Giacomo Caldarola Rome, Italy  
Kristina Callis, Salt Lake City, USA  
Muriel Cario-André, Bordeaux, France  
Lawrence S. Chan, Chicago, USA  
Pavel Chernyshov, Kiev, Ukraine  
Sergio Chimenti, Rome, Italy  
Keith Choate, New Haven, USA  
Emily Y. Chu, Philadelphia, USA  
Ser-Ling Chua, Birmingham, UK  
Isabel Colmenero, Madrid, Spain  
F. Coppedè, Pisa, Italy  
Pablo Coto-Segure, Oviedo, Spain  
Alan Cowan, Philadelphia, USA  
Bernard Cribier, Strasbourg, France  
Stacy E. Croteau, Boston, USA  
Paulo R. Cunha, Jundiaí, Brazil  
Anna Dabrowska, Gdansk, Poland  
Johanna Dahlqvist, Uppsala, Sweden  
Mette Damholt, Copenhagen, Denmark  
Federica Dassoni, Rome, Italy

## COMBINED STRUCTURED CONTENTS FOR VOLUME 93

### Skin biology and inflammation

- Long-term Topical Oestrogen Treatment of Sun-exposed Facial Skin in Post-menopausal Women Does Not Improve Facial Wrinkles or Skin Elasticity, But Induces Matrix Metalloproteinase-1 Expression, H-S. Yoon, et al., 4–8
- In vitro* Cytokine Expression by Peripheral Mononuclear Cells in Herbal Drug-induced Skin Eruption, O. Norisugi, et al., 58–62
- Skin Discolouration Caused by Iron Salts, I. Trocoli Drakensjö, et al., 92–93
- Prurigo Pigmentosa-like Persistent Papules and Plaques in a Patient with Adult-onset Still's Disease, Y-T. Cho and Y-H. Liao, 102–103
- Sudden Eruption of Tender Nodules and Plaques in a Three-year-old girl: A Quiz, U. Koppelhus, et al., 125–128
- Linear Eruptions on the Calf in a Six-week-old Boy: A Quiz, A. Bygum and M. Hulgaard, 125–128
- T-lymphocytes are Directly Involved in the Clinical Expression of Migratory Circinate Erythema in Epidermolysis Bullosa Simplex Patients, D. Castiglia, et al., 307–311
- Immunoglobulin G4-related Disease Associated with Cutaneous Vasculitis, T. Kawakami, et al., 327–328
- Utility of Eosinophil Cationic Protein Levels in the Diagnosis of Intrinsic Atopic Dermatitis, S.Y. Park, et al., 333–334
- Hypohidrosis Plays a Crucial Role in the Vicious Circle of Bathing Suit Ichthyosis: A Case with Summer Exacerbation, K. Washio, et al., 349–350
- Behçet's Disease-like Symptoms Associated with Myelodysplastic Syndrome with Trisomy 8: A Case Report and Review of the Literature, H. Koguchi-Yoshioka, et al., 355–356
- A Reddish Brown Reticulated Hyperpigmented Erythema on the Abdomen of a Girl: A Quiz, A. Dizdarevic, et al., 365–367
- Phosphoinositide-3 Kinase/Protein Kinase-B/Mammalian Target of Rapamycin Pathway in Psoriasis Pathogenesis. A Potential Therapeutic Target? T. Huang, et al., 371–379
- Expression of Class II Cytokine Genes in Children's Skin, P. Reemann, et al., 386–392
- The Prevalence of Skin Disorders in Norwegian Paediatric Renal Transplant Recipients, J.C. Sitek, et al., 421–424
- Annular Erythema Associated with Sjögren's Syndrome Preceding Overlap Syndrome of Rheumatoid Arthritis and Polymyositis with Anti-PL-12 Autoantibodies, K. Sugiura, et al., 470–471
- Induction of Skin Lesions by Ultraviolet B Irradiation in a Case of Pemphigus Erythematosus, T. Makino, et al., 487–488
- Microdialysis of Inflammatory Mediators in the Skin: A Review, K.J. Hersini, et al., 501–511
- Calcipotriol Increases hCAP18 mRNA Expression but Inhibits Extracellular LL37 Peptide Production in IL-17/IL-22-stimulated Normal Human Epidermal Keratinocytes, J-I. Sakabe, et al., 512–516
- Genes Involved in Epithelial Differentiation and Development are Differentially Expressed in Oral and Genital Lichen Planus Epithelium Compared to Normal Epithelium, K. Danielsson, et al., 526–530
- The Influence of Body Weight on the Prevalence and Severity of Hidradenitis Suppurativa, C.B. Kromann, et al., 553–557
- Inflammatory Epidermolysis Bullosa Acquisita Effectively Treated with Minocycline, K. Kawase, et al., 615–616
- Skin Barrier Integrity and Natural Moisturising Factor Levels After Cumulative Dermal Exposure to Alkaline Agents in Atopic Dermatitis, I. Angelova-Fischer, et al., 640–644
- Surfactant-induced Chronic Pruritus: Role of L-Histidine Decarboxylase Expression and Histamine Production in Epidermis, Y. Inami, et al., 645–650
- Idiopathic Pure Sudomotor Failure Responding to Oral Antihistamine with Sweating Activities, A. Suma, et al., 723–724
- Acral Acquired Cutis Laxa Associated with IgA Multiple Myeloma, Joint Hyperlaxity and Urticarial Neutrophilic Dermatitis, N. Kluger, et al., 743–744
- Arc-shaped Plaque on the Forehead: A Quiz, Y. Kawakami, et al., 747–749

### Metabolism and internal medicine

- Distribution and Quantitation of Skin Iron in Primary Haemochromatosis: Correlation with Total Body Iron Stores in Patients Undergoing Phlebotomy, T. Pinheiro, et al., 14–19
- Significance of Two Skin Biopsy Performances with Consecutive Deeper Sections in the Differential Diagnosis Between

- Cutaneous Polyarteritis Nodosa and Livedo Vasculopathy, T. Kawakami, et al., 84–85
- Prurigo Pigmentosa-like Persistent Papules and Plaques in a Patient with Adult-onset Still's Disease, Y-T. Cho and Y-H. Liao, 102–103
- Association of 25-hydroxyvitamin D with Metabolic Syndrome in Patients with Psoriasis: A Case-control Study, J. Orgaz-Molina, et al., 142–145
- Eosinophilic Fasciitis following Allogeneic Bone Marrow Transplantation in a Patient with Acute Myeloid Leukaemia, G-Y. Chu, et al., 221–222
- Localized Cutaneous Amyloidosis Associated with Poikilodermatous Mycosis Fungoides, K. Izumi, et al., 225–226
- Urticarial Vasculitis Associated with Essential Thrombocythemia, A.D. Scott, et al., 244–245
- Uraemic Pruritus Markedly Affects the Quality of Life and Depressive Symptoms in Haemodialysis Patients with End-stage Renal Disease, J. Suseł, et al., 276–281
- Calciophylaxis Is a Cutaneous Process Without Involvement of Internal Organs in a Retrospective Study of Postmortem Findings in Three Patients, L.K. Andersen, et al., 298–302
- Small Bowel Transglutaminase 2-specific IgA Deposits in Dermatitis Herpetiformis, T.T. Salmi, et al., 393–397
- The Prevalence of Skin Disorders in Norwegian Paediatric Renal Transplant Recipients, J.C. Sitek, et al., 421–424
- Iatrogenic Vitamin D Deficiency in a Patient with Gorlin Syndrome: The Conundrum of Photoprotection, S. Gentzsch, et al., 459–460
- Generalised Acanthosis Nigricans in Childhood with Short Stature Associated with Poor Response to Growth Hormone Provocation, M. Iwade, et al., 486–487
- Peristomal Epidermolysis Bullosa Acquisita in a Patient with Crohn's Disease, N. Ormaechea-Pérez, et al., 489–490
- Follicular Erythematous Papules with Keratotic Spicules: A Quiz, M. Linke, et al., 492–496
- The Influence of Body Weight on the Prevalence and Severity of Hidradenitis Suppurativa, C.B. Kromann, et al., 553–557
- Livedoid Vasculopathy: Clinical Features and Treatment in 24 Chinese Patients, S. Feng, et al., 574–578
- Epidermal Insulin Resistance as a Therapeutic Target in Acanthosis Nigricans? B. Malisiewicz, et al., 607–608
- Acral Acquired Cutis Laxa Associated with IgA Multiple Myeloma, Joint Hyperlaxity and Urticarial Neutrophilic Dermatitis, N. Kluger, et al., 743–744
- dish Questionnaire Study, S-B. Lonne-Rahm, et al., 185–187
- Mild Eczema Affects Self-perceived Health among Pre-adolescent Girls, N. Ballardini, et al., 312–316
- Variations in Serum TARC and I-TAC Levels Reflect Minor Changes in Disease Activity and Pruritus in Atopic Dermatitis, T. Kimura, et al., 331–332
- Utility of Eosinophil Cationic Protein Levels in the Diagnosis of Intrinsic Atopic Dermatitis, S.Y. Park, et al., 333–334
- Annular Erythema and Papules in Infantile Atopic Dermatitis, T. Aoki, 335–336
- Usage Tests of Oak Moss Absolutes Containing High and Low Levels of Atranol and Chloroatranol, M. Mowitz, et al., 398–402
- Patch Testing with Formaldehyde 2.0% in Parallel with 1.0% by the Swedish Contact Dermatitis Research Group, M. Isaksson, et al., 408–410
- Three Randomised Phase I/IIa Trials of 5% Cis-urocanic Acid Emulsion Cream in Healthy Adult Subjects and in Patients with Atopic Dermatitis, J. Peltonen, et al., 415–420
- Sun-induced Pustular Dermatitis of the Scalp – A New Variant of Erosive Pustular Dermatitis of the Scalp? B. Aigner, et al., 457–458
- Is Adult Atopic Eczema More Common Than We Think? – A Population-based Study in Danish Adults, G.R. Vinding, et al., 480–482
- Hair Zinc Levels and the Efficacy of Oral Zinc Supplementation in Patients with Atopic Dermatitis, J.E. Kim, et al., 558–562
- Febrile Ulceronecrotic Mucha-Habermann Disease in a Young Boy: A Case Report and Review of the Literature, K. Yamada, et al., 603–604
- Skin Barrier Integrity and Natural Moisturising Factor Levels After Cumulative Dermal Exposure to Alkaline Agents in Atopic Dermatitis, I. Angelova-Fischer, et al., 640–644
- Implementation of Recommendations for Hand Eczema Through a Multifaceted Strategy. A Process Evaluation Among Health Care Workers, E. W.C. van der Meer, et al., 651–657
- Chronic Hand Eczema: Perception and Knowledge in Non-affected Individuals from General and Dermatological Practice, V. Letulé, et al., 687–690
- Atopic Dermatitis in Israeli Adolescents – A Large Retrospective Cohort Study, Y. Wohl, et al., 695–698
- External Beam Radiation Therapy for Recalcitrant Dermatitis, T.T. Sio, et al., 717–719
- Asparagus-induced Fixed Food Eruptions Mimicking Cutaneous Lupus, B.M. Gaus, et al., 731–732

## **Atopy, allergy and eczema**

- Personality Traits, Depression and Itch in Patients with Atopic Dermatitis in an Experimental Setting: A Regression Analysis, C. Schut, et al., 20–25
- Olopatadine Hydrochloride Decreases Tissue Interleukin-31 Levels in an Atopic Dermatitis Mouse Model, H. Murota, et al., 78–79
- Analysis of Contact Allergens in Korean Polysensitized Patients by Patch Testing: A Pilot Study, D.S. Kim, et al., 80–81
- Induction of CD163+ M2 Macrophages in the Lesional Skin of Eosinophilic Pustular Folliculitis, A. Hagiwara, et al., 104–106
- Characteristics and Provision of Care in Patients with Chronic Hand Eczema: Updated Data from the CARPE Registry, C.J. Apfelbacher, et al., 163–167
- Factors Associated with Remission of Eczema in Children: A Population-based Follow-up Study, L.B. von Kobyletzki, et al., 179–184
- Adult Atopic Dermatitis Patients and Physical Exercise: A Swe-

## **Itch, urticaria and neurodermatology**

- Personality Traits, Depression and Itch in Patients with Atopic Dermatitis in an Experimental Setting: A Regression Analysis, C. Schut, et al., 20–25
- Familial Atypical Cold Urticaria Localized on the Face: A Case Report, L. Huilaja, et al., 88–89
- Elevated Serum Levels of TARC/CCL17, Eotaxin-3/CCL26 and VEGF in a Patient with Kimura's Disease and Prurigo-like Eruption, S-I. Motegi, et al., 112–113
- Report from the Inaugural Australian Pruritus Symposium, Sydney, Australia, August 10, 2013, F. Brennan and D.F. Murrell, 123
- Increased Density of Cutaneous Nerve Fibres in the Affected Dermatomes After Herpes Zoster Therapy, C. Zografakis, et al., 168–172
- Urticarial Vasculitis Associated with Essential Thrombocythemia, A.D. Scott, et al., 244–245
- A Segmental Rash in a Young Male: A Quiz, E.E. Merika, et

al., 253–256

Hydroxyethyl Starch-induced Pruritus: Clinical Characteristics and Influence of Dose, Molecular Weight and Substitution, S. Ständer, et al., 282–287

Omalizumab Induced Remission of Idiopathic Anaphylaxis in a Patient Suffering from Indolent Systemic Mastocytosis, L. Kibsgaard, et al., 363–364

Cutaneous Location of Atypical Teratoid/Rhabdoid Tumour, N. Bellon, et al., 454–456

A New Ten-item Questionnaire For Assessing Sensitive Skin: The Sensitive Scale-10, L. Misery, et al., 635–639

Surfactant-induced Chronic Pruritus: Role of L-Histidine Decarboxylase Expression and Histamine Production in Epidermis, Y. Inami, et al., 645–650

Qualitative Interviews on Chronic Pruritus in Haemodialysis Patients, M. Weiss and E. Weisshaar, 713–714

Idiopathic Pure Sudomotor Failure Responding to Oral Antihistamine with Sweating Activities, A. Suma, et al., 723–724

## Psoriasis and autoimmune diseases

Infliximab Does Not Lead to Reduction in the Interferon-gamma and Lymphoproliferative Responses of Patients with Moderate to Severe Psoriasis, L.C.M. Ortigosa, et al., 26–31

Cardiovascular Risk Factors in Children and Adolescents with Psoriasis: A Case-control Study, P. Jensen, et al., 76–78

Remission of Bullous Pemphigoid after Rituximab Treatment in a Psoriasis Patient on Regular Low-dose Methotrexate, T-S. Wang and T-F. Tsai, 108–109

Onset of Psoriatic Arthritis at the Hip Joint Without Spondylitis, H. Maejima, et al., 110–111

Alopecia Universalis Associated with Vitiligo in an 18-year-old HIV-positive Patient: Highly Active Anti-retroviral Therapy as First Choice Therapy? D.S. Nikolic, et al., 116–117

Association of 25-hydroxyvitamin D with Metabolic Syndrome in Patients with Psoriasis: A Case-control Study, J. Orgaz-Molina, et al., 142–145

Serum Angiopoietin-like Protein 3 Levels: Possible Correlation with Progressive Skin Sclerosis, Digital Ulcers and Pulmonary Vascular Involvement in Patients with Systemic Sclerosis, Y. Ichimura, et al., 157–162

Effectiveness of Interdisciplinary vs. Dermatological Care of Moderate-to-severe Psoriasis: A Pragmatic Randomised Controlled Trial, J. Schmitt, et al., 192–197

Reliability, Responsiveness and Validity of Scalpdex in Children with Scalp Psoriasis: The Dutch Study, A.M. Oostveen, et al., 198–202

Clinical Significance of Anti-desmoglein-1 and -3 Circulating Autoantibodies in Pemphigus Patients Measured by Area Index and Intensity Score, A. Patsatsi, et al., 203–206

Overlap of IgA Pemphigus and Linear IgA Dermatitis in a Patient with Ulcerative Colitis: A Mere Coincidence? J.S. Kern, et al., 228–230

Detection of Apoptotic Keratinocytes in a Case of Bullous Pemphigoid Developed after Graft-versus-host Disease, K. Yoneda, et al., 231–232

Clinical Characteristics Associated with Illness Perception in Psoriasis, A.K. Wahl, et al., 271–275

Efficacy and Safety of Systemic Treatments for Psoriasis in Elderly Patients, S. Piaserico, et al., 293–297

Coexistent Skin Lesions of Vitiligo and Psoriasis Vulgaris. Immunohistochemical Analyses for IL-17A-producing Cells and Regulatory T cells, S. Ono, et al., 329–330

Behçet's Disease-like Symptoms Associated with Myelodys-

plastic Syndrome with Trisomy 8: A Case Report and Review of the Literature, H. Koguchi-Yoshioka, et al., 355–356

Methotrexate-induced Accelerated Nodulosis in a Patient with Rheumatoid Arthritis and Scleroderma, S-I. Motegi, et al., 357–358

A Typical Case of Paraneoplastic Pemphigus Without Detection of Malignancy: Effectiveness of Plasma Exchange, C. Kitagawa, et al., 359–361

Phosphoinositide-3 Kinase/Protein Kinase-B/Mammalian Target of Rapamycin Pathway in Psoriasis Pathogenesis. A Potential Therapeutic Target? T. Huang, et al., 371–379

Regulatory Networks Contributing to Psoriasis Susceptibility, K. Szabó, et al., 380–385

Small Bowel Transglutaminase 2-specific IgA Deposits in Dermatitis Herpetiformis, T.T. Salmi, et al., 393–397

The Risk of Skin Cancer in Psoriasis Patients Treated with UVB Therapy, A. Osmancevic, et al., 425–430

Annular Erythema Associated with Sjögren's Syndrome Preceding Overlap Syndrome of Rheumatoid Arthritis and Polymyositis with Anti-PL-12 Autoantibodies, K. Sugiura, et al., 470–471

Pemphigus Foliaceus Associated with Anti-NXP2 Autoantibody-positive Dermatomyositis, N. Fujimoto, et al., 478–479

Induction of Skin Lesions by Ultraviolet B Irradiation in a Case of Pemphigus Erythematosus, T. Makino, et al., 487–488

Calcipotriol Increases hCAP18 mRNA Expression but Inhibits Extracellular LL37 Peptide Production in IL-17/IL-22-stimulated Normal Human Epidermal Keratinocytes, J-I. Sakabe, et al., 512–516

Implementing Best Practice in Psoriasis: A Nordic Expert Group Consensus, K. Kragballe, et al., 547–552

The Proportion of Lymphocytic Inflammation with CD123-positive Cells in Lupus Erythematosus Profundus Predict a Clinical Response to Treatment, A. Miyashita, et al., 563–567

Treatment of Generalised Vitiligo with Tacrolimus 0.1% Ointment vs. UVB Intense Pulsed Light Phototherapy: A Pilot Study, A. Hartmann, et al., 585–587

Genetic Analysis of *CARD14* in Non-familial Pityriasis Rubra Pilaris: A Case Series, J-B. Hong, et al., 587–588

Debio 0932, A New Oral Hsp90 Inhibitor, Alleviates Psoriasis in a Xenograft Transplantation Model, K. Stenderup, et al., 672–676

Current Concepts in Psoriatic Arthritis: Pathogenesis and Management, K. de Vlam, et al., 627–634

Genotype-Phenotype Correlations in a Prospective Cohort Study of Paediatric Plaque Psoriasis: Lack of Correlation Between HLA-C\*06 and Family History of Psoriasis, A.M. Oostveen, et al., 667–671

Effect of Weight Loss on the Cardiovascular Risk Profile of Obese Patients with Psoriasis, P. Jensen, et al., 691–694

Circulating Anti-BP180 NC16a and Anti-BP230 Autoantibodies in Patients with Genital Lichen Sclerosus Do Not Correlate with Disease Activity and Pruritus, A. Patsatsi, et al., 711–712

The Potential Effect of the Tumour Necrosis Factor- $\alpha$  Inhibitors on Vitamin D Status in Psoriatic Patients, G. Ganzetti, et al., 715–717

Interstitial Granulomatous Dermatitis Associated with Myelodysplastic Syndrome – Complete Clearance under Therapy with 5-azacytidine, N. Patsinakidis, et al., 725–726

Exacerbation of Pemphigus Foliaceus After Electron-beam Radiation, K. Kikuchi, et al., 729–730

Characterization of Two Cases of Bullous Pemphigoid Reactive Only with BP230 on Japanese Enzyme-linked Immunosorbent Assays, S. Sasai, et al., 734–736

IgA/IgG Pemphigus with Infiltration of Neutrophils and Eosinophils in an Ulcerative Colitis Patient, R. Uchiyama, et al., 737–738

**Immunology, lymphoma and HIV/AIDS**

- Serum Levels of Angiopoietin-2, but not Angiopoietin-1, are Elevated in Patients with Erythrodermic Cutaneous T-cell Lymphoma, M. Kawaguchi and M. Sugaya, 9–13
- Primary Cutaneous Follicular Helper T-cell Lymphoma Treated with Allogeneic Bone Marrow Transplantation: Immunohistochemical Comparison with Angioimmunoblastic T-cell Lymphoma, H. Ohmatsu, et al., 54–57
- CD4/CD8 Double-negative Mycosis Fungoides Mimicking Erythema Gyrratum Repens in a Patient with Underlying Lung Cancer, K. Nagase, et al., 89–90
- Denileukin Diftitox plus Total Skin Electron Beam Radiation in Patients with Treatment-refractory Cutaneous T-cell Lymphoma (Mycosis Fungoides): Report of Four Cases, K. Buder, et al., 94–96
- Induction of CD163+ M2 Macrophages in the Lesional Skin of Eosinophilic Pustular Folliculitis, A. Hagiwara, et al., 104–106
- Alopecia Universalis Associated with Vitiligo in an 18-year-old HIV-positive Patient: Highly Active Anti-retroviral Therapy as First Choice Therapy? D.S. Nikolic, et al., 116–117
- Indurated Nodules Within a Tattoo: A Quiz, K.K. Vance, et al., 125–128
- CD11c+ Dendritic Cells Rather than Langerhans Cells are Reduced in Normal Skin of Immunosuppressed Renal Transplant Recipients, L.F. Sandvik, et al., 173–178
- Generalized Granulomatous Dermatitis Accompanied by Myelodysplastic Syndrome, A. Hagiwara, et al., 223–224
- Localized Cutaneous Amyloidosis Associated with Poikilodermatous Mycosis Fungoides, K. Izumi, et al., 225–226
- Neurolymphomatosis Associated with Erythrodermic Mycosis Fungoides, S. Ogawa, et al., 227–228
- A Case of Mycosis Fungoides with Large Cell Transformation Associated with Infliximab Treatment, H. Suga, et al., 233–234
- IgA Paraneoplastic Pemphigus in Angioimmunoblastic T-cell Lymphoma with Antibodies to Desmocollin 1, Type VII Collagen and Laminin 332, M. Yashiro, et al., 235–236
- Primary Cutaneous CD8 T-cell Lymphoma Masquerading as Acral Vascular Syndrome, F. Le Loarer, et al., 317–319
- Successful Treatment of Primary Cutaneous Anaplastic Large Cell Lymphoma with Intralesional Methotrexate Therapy, I. Yokoi, et al., 319–320
- Immunosuppressive and Cytotoxic Cells in Invasive versus Non-invasive Bowen's Disease, S. Furudate, et al., 337–339
- Imiquimod 5%: A Successful Treatment for Pseudolymphoma, J. Baumgartner-Nielsen and H. Lorentzen, 469
- First-line Combination Therapy with Rituximab and Corticosteroids is Effective and Safe for Pemphigus, Y-T. Cho, et al., 472–473
- Lymphomatoid Papulosis Type D or an Aggressive Epidermotropic CD8 Cytotoxic T-cell Lymphoma? R.M. Andersen, et al., 474–475
- Pemphigus Foliaceus Associated with Anti-NXP2 Autoantibody-positive Dermatomyositis, N. Fujimoto, et al., 478–479
- Follicular Erythematous Papules with Keratotic Spicules: A Quiz, M. Linke, et al., 492–496
- Detection of Autoantibodies to Precursor Proteins of Desmogleins in Sera of a Patient with Bowen Carcinoma, T. Demitsu, et al., 601–603
- Successful Treatment of Adult Onset Langerhans Cell Histiocytosis with Bi-weekly Administration of Pegylated Interferon- $\alpha$ , S. Furudate, et al., 611–612
- Recurrent Course and CD30 Expression of Atypical T lymphocytes Distinguish Lymphomatoid Papulosis From Primary

- Cutaneous Aggressive Epidermotropic CD8+ Cytotoxic T-cell Lymphoma, M. Tsujiwaki, 613–614
- Unresectable Perineal Cuniculatum Carcinoma: Partial Remission Using Systemic Isotretinoin and Interferon- $\alpha$ 2a Therapy, M. Tauber, et al., 721–722
- Interstitial Granulomatous Dermatitis Associated with Myelodysplastic Syndrome – Complete Clearance under Therapy with 5-azacytidine, N. Patsinakidis, et al., 725–726
- Neutrophil-rich Anaplastic Large Cell Lymphoma Expressing Interleukin-8, T. Miyagawa, et al., 741–742

**Drug development and adverse reactions**

- Correlation of Botulinum Toxin Dose with Neurophysiological Parameters of Efficacy and Safety in the Glabellar Muscles: A Double-blind, Placebo-controlled, Randomized Study, M. Alimohammadi, et al., 32–37
- In vitro* Cytokine Expression by Peripheral Mononuclear Cells in Herbal Drug-induced Skin Eruption, O. Norisugi, et al., 58–62
- Using CD40 Ligand Expression to Detect Antigen-specific T Cells in Patients with Drug Eruptions, T. Higuchi, et al., 86–87
- Acute Localized Exanthematous Pustulosis on Inguinal Area Secondary to Piperacillin/tazobactam, L. Huilaja, et al., 106–107
- Digital Vasculitis with Eosinophilia Possibly Associated with Etanercept Therapy, K. Nakahigashi, et al., 239–240
- Cryotherapy Caused Widespread Subcutaneous Emphysema Mimicking Angioedema, P. Jensen, et al., 241
- Angiotensin-converting Enzyme Inhibitor-induced Angioedema – A Dangerous New Epidemic, E. Rye Rasmussen, et al., 260–264
- Hydroxyethyl Starch-induced Pruritus: Clinical Characteristics and Influence of Dose, Molecular Weight and Substitution, S. Ständer, et al., 282–287
- Efficacy and Safety of Systemic Treatments for Psoriasis in Elderly Patients, S. Piaserico, et al., 293–297
- Fatal Case of Toxic Epidermal Necrolysis Caused by Cefozopran and Associated with Psoriasis, Y. Sawada, et al., 341–342
- Omalizumab Induced Remission of Idiopathic Anaphylaxis in a Patient Suffering from Indolent Systemic Mastocytosis, L. Kibsgaard, et al., 363–364
- Three Randomised Phase I/IIa Trials of 5% Cis-urocanic Acid Emulsion Cream in Healthy Adult Subjects and in Patients with Atopic Dermatitis, J. Peltonen, et al., 415–420
- Duloxetine-induced Pseudolymphoma with Features of Lymphocytic Infiltration of Jessner-Kanof, M. Corazza, et al., 605–606
- Inflammatory Epidermolysis Bullosa Acquisita Effectively Treated with Minocycline, K. Kawase, et al., 615–616
- Can Median Nail Dystrophy be an Adverse Effect of Alitretinoin Treatment? A. Hillert Winther and A. Bygum, 719–720
- Asparagus-induced Fixed Food Eruptions Mimicking Cutaneous Lupus, B.M. Gaus, et al., 731–732

**Skin tumors and pigmentation**

- Immunocryosurgery for Non-superficial Basal Cell Carcinoma: A Prospective, Open-label Phase III Study for Tumours  $\leq 2$  cm in Diameter, G. Gaitanis and I.D. Bassukas, 38–44
- Ipilimumab in Melanoma Patients with Brain Metastasis: A Retrospective Multicentre Evaluation of Thirty-eight Patients, M-P. Konstantinou, et al., 45–49
- Interventional Three-year Longitudinal Study of Melanocytic Naevus Development in Pre-school Children in Dresden, Saxony, U. Wollina, et al., 63–66
- Denileukin Diftitox plus Total Skin Electron Beam Radiation in Patients with Treatment-refractory Cutaneous T-cell Lym-

- phoma (Mycosis Fungoides): Report of Four Cases, K. Buder, et al., 94–96
- Dermoscopy of Peristomal Polyps and Metastasis of Colon Cancer, T. Ito, et al., 96–97
- Tubular Spitz Naevus Mimicking Eccrine Spiradenoma, Y. Fujita, et al., 114–115
- Change in Dermoscopic Pattern of Naevi in Children: A Commentary, A. Scope, et al., 120–122
- Shiny White Streaks: A Sign of Malignancy at Dermoscopy of Pigmented Skin Lesions, I. Shitara, et al., 132–137
- Referrals by General Practitioners for Suspicious Skin Lesions: The Urgency of Training, M.C.J. van Rijsingen, et al., 138–141
- CD11c+ Dendritic Cells Rather than Langerhans Cells are Reduced in Normal Skin of Immunosuppressed Renal Transplant Recipients, L.F. Sandvik, et al., 173–178
- Image Training, Using Random Images of Melanoma, Performs as Well as the ABC(D) Criteria in Enabling Novices to Distinguish Between Melanoma and Mimics of Melanoma, K. Robertson, et al., 265–270
- Melanoma on Tattoos: Two Finnish Cases, N. Kluger, et al., 325–326
- Immunosuppressive and Cytotoxic Cells in Invasive versus Non-invasive Bowen's Disease, S. Furudate, et al., 337–339
- Solid Variant of Angiomatoid Fibrous Histiocytoma Masked by Interstitial Granuloma Annulare in a 13-year-old Child: No Evidence for Translocation Breakpoints, K.M. Kaune, et al., 353–354
- Erythematous Protruding Skin Lesion in the Retroauricular Area: A Quiz, K.E. Jung, et al., 365–366
- Bowen's Disease: A Six-year Retrospective Study of Treatment with Emphasis on Resection Margins, A. Westers-Attema, et al., 431–435
- Cutaneous Location of Atypical Teratoid/Rhabdoid Tumour, N. Bellon, et al., 454–456
- Scalp Angiosarcoma Presented as Skin-Coloured Papules, J.Y. Byun, et al., 461–462
- Symmetrical Giant Facial Plaque-type Juvenile Xanthogranuloma Persisting Beyond 10 years of Age, K. Sugiura, et al., 465–466
- Imiquimod 5%: A Successful Treatment for Pseudolymphoma, J. Baumgartner-Nielsen and H. Lorentzen, 469
- Risk of Kaposi Sarcoma Among Immigrants to Sweden, S.M. Mousavi, et al., 476–477
- Detection of Human Papillomavirus Type 56 in Giant Condyloma Acuminatum, T. Ishibuchi, et al., 482–483
- A Perianal Erythematous Plaque: A Quiz, H. Ishibuchi, et al., 492–496
- High Incidence of Naevi-associated BRAF Wild-type Melanoma and Dysplastic Naevi under Treatment with the Class I BRAF Inhibitor Vemurafenib, D. Göppner, 517–520
- The Incidence of Melanoma is Increasing in the Susceptible Young Australian Population, D. Czarnecki, 539–541
- Efficacy of Fluorescence Diagnosis-guided Mohs Micrographic Surgery for Pigmented vs Non-pigmented Basal Cell Carcinoma, S.-Y. Jeon, et al., 568–573
- Increased Risk of Malignant Melanoma in Patients with Systemic Mastocytosis? H. Hägglund, et al., 583–584
- Increased Expression of S100A6 in Malignant Granular Cell Tumours, Y. Mitamura, et al., 595–596
- Human Papillomaviruses in Anogenital Epithelial Lesions, M. Kato, et al., 597–599
- Detection of Autoantibodies to Precursor Proteins of Desmogleins in Sera of a Patient with Bowen Carcinoma, T. Demitsu, et al., 601–603
- Solitary Tumour on the Neck: A Quiz, K. Horie, 620–622
- High Magnification Digital Dermoscopy of Basal Cell Carcinoma: A Single-centre Study on 400 cases, S. Seidenari, et al., 677–682
- Diagnosis of Pigmented Skin Tumours in a Dermatological Setting: Different Aspects of the Number Needed to Excise as a Measure of Efficiency, I. Ahnlide, et al., 683–686
- Unresectable Perineal Cuniculatum Carcinoma: Partial Remission Using Systemic Isotretinoin and Interferon- $\alpha$ 2a Therapy, M. Tauber, et al., 721–722
- Exacerbation of Pemphigus Foliaceus After Electron-beam Radiation, K. Kikuchi, et al., 729–730
- Rejection-mediated Regression of Melanocytic Naevi in an Immunosuppressed Organ Transplant Recipient, E. Zonta, et al., 733–734
- In transit* Recurrence of Merkel Cell Carcinoma Associated with Polyarthritis Effectively Treated with Immunocryosurgery, P.V. Voulgari, et al., 739–740

## Wounds, vascular disorders and connective tissues

- Association of Pain Level, Health and Wound Status in Patients with Chronic Leg Ulcers, R. Renner, et al., 50–53
- Venous Lakes of the Lips: Prevalence and Associated Factors, S. Menni, et al., 74–75
- Significance of Two Skin Biopsy Performances with Consecutive Deeper Sections in the Differential Diagnosis Between Cutaneous Polyarteritis Nodosa and Livedo Vasculopathy, T. Kawakami, et al., 84–85
- Treatment of an Intractable Cutaneous Ulcer in the Right Lateral Malleolus in Fibrodysplasia Ossificans Progressiva, K. Matsuda, et al., 91–92
- Eosinophilic Fasciitis following Allogeneic Bone Marrow Transplantation in a Patient with Acute Myeloid Leukaemia, G.-Y. Chu, et al., 221–222
- Digital Vasculitis with Eosinophilia Possibly Associated with Etanercept Therapy, K. Nakahigashi, et al., 239–240
- Calciphylaxis Is a Cutaneous Process Without Involvement of Internal Organs in a Retrospective Study of Postmortem Findings in Three Patients, L.K. Andersen, et al., 298–302
- Primary Cutaneous CD8 T-cell Lymphoma Masquerading as Acral Vascular Syndrome, F. Le Loarer, et al., 317–319
- Significant Differences in Nurses' Knowledge of Basic Wound Management – Implications for Treatment, K. Zarchi, et al., 403–407
- Scalp Angiosarcoma Presented as Skin-Coloured Papules, J.Y. Byun, et al., 461–462
- Peristomal Epidermolysis Bullosa Acquisita in a Patient with Crohn's Disease, N. Ormaechea-Pérez, et al., 489–490
- Livedoid Vasculopathy: Clinical Features and Treatment in 24 Chinese Patients, S. Feng, et al., 574–578

## Hair, nails and adnexal disorders,

- New Trichoscopy Findings in Trichotillomania: Flame Hairs, V-sign, Hook Hairs, Hair Powder, Tulip Hairs, A. Rakowska, et al., 303–306
- Downregulation of c-Kit/MITF-M in Graying Hair of Juvenile Poliosis, H. Feng, et al., 484–485
- Purulent Discharge from the Nipples: A Quiz, E. del Alcázar Viladomiu, et al., 492–496
- Effect of Dietary Supplementation with Omega-3 Fatty Acid and Gamma-linolenic Acid on Acne Vulgaris: A Randomised, Double-blind, Controlled Trial, J.Y. Jung, et al., 521–525

- A Retrospective Study of Clinical and Mutational Findings in 45 Danish Families with Ectodermal Dysplasia, M.s Tiedemann Svendsen, et al., 531–533
- Coexistence of Eccrine Squamous Syringometaplasia and Graft-Versus-Host Disease in a Patient with Secondary Myelodysplastic Syndrome, R. Carrascosa, et al., 599–600
- Segmented Heterochromia in a Single Scalp Hair, S.B. Cho, et al., 609–610
- Onychophagia is Associated with Impairment of Quality of Life, P. Pacan, et al., 703–706
- Onychotillomania in the Course of Depression: A Case Report, M. Grzesiak, et al., 745–746
- Periungual Swelling and Nail Dystrophy in a Healthy Male: A Quiz, H.M. Holahan, et al., 747–749

### **Inherited diseases and malformations,**

- Distribution and Quantitation of Skin Iron in Primary Haemochromatosis: Correlation with Total Body Iron Stores in Patients Undergoing Phlebotomy, T. Pinheiro, et al., 14–19
- Long-term Follow-up of Cultured Epidermal Autograft in a Patient with Recessive Dystrophic Epidermolysis Bullosa, S. Shinkuma, et al., 98–99
- T-lymphocytes are Directly Involved in the Clinical Expression of Migratory Circinate Erythema in Epidermolysis Bullosa Simplex Patients, D. Castiglia, et al., 307–311
- A Novel 5-bp Deletion Mutation in *AAGAB* Gene in a Chinese Family with Punctate Palmoplantar Keratoderma, M. Li, et al., 339–340
- Congenital Linear Streaks on the Face and Neck and Microphthalmia in an Infant Girl, N. Kluger, et al., 342–343
- Factors Associated with Impaired Quality of Life in Adult Patients Suffering from Ichthyosis, I. Dreyfus, et al., 344–346
- Extensive Postzygotic Mosaicism for a Novel Keratin 10 Mutation in Epidermolytic Ichthyosis, D. Kiritsi, et al., 346–348
- Hypohidrosis Plays a Crucial Role in the Vicious Circle of Bathing Suit Ichthyosis: A Case with Summer Exacerbation, K. Washio, et al., 349–350
- Kindler Syndrome with Severe Intestinal Involvement: A 31-year Follow-up, S. Shimizu, et al., 351–352
- Linear Collagen Naevus: An Unusual Connective Tissue Disorder, W. Dubiel, et al., 361–362
- Hereditary Angioedema – Consequences of a New Treatment Paradigm in Denmark, A. Bygum, 436–441
- Iatrogenic Vitamin D Deficiency in a Patient with Gorlin Syndrome: The Conundrum of Photoprotection, S. Gentzsch, et al., 459–460
- Symmetrical Giant Facial Plaque-type Juvenile Xanthogranuloma Persisting Beyond 10 years of Age, K. Sugiura, et al., 465–466
- Phacomatosis Pigmentokeratolica: A Follow-up Report with Fatal Outcome, G-Y. Chu and C-Y. Wu, 467–468
- Generalised Acanthosis Nigricans in Childhood with Short Stature Associated with Poor Response to Growth Hormone Provocation, M. Iwade, et al., 486–487
- A Retrospective Study of Clinical and Mutational Findings in 45 Danish Families with Ectodermal Dysplasia, M. Tiedemann Svendsen, et al., 531–533
- Early Immunopathological Diagnosis of Ichthyosis with Confetti in Two Sporadic Cases with New Mutations in Keratin 10, A. Diociaiuti, et al., 579–582
- Novel *TGMI* Missense Mutation p.Arg727Gln in a Case of Self-healing Collodion Baby, K. Tanahashi, et al., 589–590
- Lethal Form of Keratitis–Ichthyosis–Deafness Syndrome Caused

- by the *GJB2* Mutation p.Ser17Phe, J. Mazereeuw-Hautier, et al., 591–592
- Hypertrophic Left Calf and Multiple Flesh-coloured Subcutaneous Tumours in a 5-year-old Girl: A Quiz, M.J. van Geel, et al., 619–621
- Unilateral Eruption of Painful Papules: A Quiz, A.D. Scott, 619–620
- Neurofibromatosis Type 1 Gene Mutation Analysis Using Sequence Capture and High-throughput Sequencing, E. Uusitalo, et al., 663–666
- Palmoplantar Keratoderma of the Gamborg-Nielsen Type is Caused by Mutations in the *SLURP1* Gene and Represents a Variant of Mal de Meleda, L. Zhao, et al., 707–710

### **Facial dermatoses, skin aging and cosmesis**

- Long-term Topical Oestrogen Treatment of Sun-exposed Facial Skin in Post-menopausal Women Does Not Improve Facial Wrinkles or Skin Elasticity, But Induces Matrix Metalloproteinase-1 Expression, H-S. Yoon, et al., 4–8
- Acne in Pregnant Women: A French Survey, B. Dréno, et al., 82–83
- Annular Atrophic Plaques on the Face in a Father and a Son: Christianson's Disease, a Real Entity? W.K. Peitsch, et al., 100–101
- Sun-induced Pustular Dermatitis of the Scalp – A New Variant of Erosive Pustular Dermatitis of the Scalp? B. Aigner, et al., 457–458
- Dermoscopic Features of Plasma Cell Cheilitis and Actinic Cheilitis, T. Ito, et al., 593–594

### **Lasers, UV-irradiation and dermatologic therapy**

- Narrow-band Ultraviolet B Treatment Boosts Serum 25-hydroxyvitamin D in Patients with Psoriasis on Oral Vitamin D Supplementation, M.J. Ala-Houhala, et al., 146–151
- Acceptance and Usability of Different Sunscreen Formulations among Outdoor Workers: A Randomized, Single-blind, Crossover Study, A. Bauer, et al., 152–156
- Effective Oral Psoralen Plus Ultraviolet A Therapy for Digital Ulcers with Revascularization in Systemic Sclerosis, T. Inoue, et al., 250–251
- The Risk of Skin Cancer in Psoriasis Patients Treated with UVB Therapy, A. Osmancevic, et al., 425–430
- Treatment of Generalised Vitiligo with Tacrolimus 0.1% Ointment vs. UVB Intense Pulsed Light Phototherapy: A Pilot Study, A. Hartmann, et al., 585–587
- External Beam Radiation Therapy for Recalcitrant Dermatitis, T.T. Sio, et al., 717–719

### **Mucous membranes and granulomatous diseases**

- Generalized Granulomatous Dermatitis Accompanied by Myelodysplastic Syndrome, A. Hagiwara, et al., 223–224
- A Case of Mucous Membrane Pemphigoid Involving the Trachea and Bronchus with Autoantibodies to  $\beta 3$  Subunit of Laminin-332, K. Kato, et al., 237–238

### **Microbiology, STI and genital dermatology**

- Home-sampling as a Tool in the Context of *Chlamydia trachomatis* Partner Notification: A Randomized Controlled Trial, L. Falk, et al., 72–74
- Successful Treatment of Anal and Perianal Condyloma Acuminata with Imiquimod, C. Tawada, et al., 118–119
- Prevalence of Human Papillomavirus in Anal and Oral Sites Among Patients with Genital Warts, K. Kofoed, et al., 207–211

Orf Virus Infection in a Hunter in Western Austria, Presumably Transmitted by Game, M. Kitchen, et al., 212–214

Combination Therapy with Amphotericin-B and Miltefosine for Post-kala-azar Dermal Leishmaniasis: A Preliminary Report, V. Ramesh, et al., 242–243

Atypical Presentation of Genital Herpes Simplex (HSV-2) in Two Patients with Chronic Lymphocytic Leukemia, T.N. Shim, et al., 246–247

A Solitary Ulcer of the Tongue: A Quiz, M. Singh, et al., 253–256

A Reduced National Incidence of Anogenital Warts in Young Danish Men and Women after Introduction of a National Quadrivalent Human Papillomavirus Vaccination Programme for Young Women—An Ecological Study, N. Sandø, et al., 288–292

Early Congenital Syphilis Presenting with Vesicobullous Eruptions Beyond Palmoplantar Regions, S.H. Lee, et al., 321–322

Syphilis Diagnosis: Three Cases with Increasing Treponemal Test Result after Therapy, H.O. Larsson, et al., 323–324

Detection of Human Papillomavirus Type 56 in Giant Condyloma Acuminatum, T. Ishibuchi, et al., 482–483

Infestations and arthropod reactions,

Two Cases of Imported Tungiasis with Severe Staphylococcus aureus Superinfection, S. Veraldi, et al., 463–464

*In this Issue:* Lichen Sclerosus et Atrophicus in Males: How to Diagnose, How to Manage..., M. Cusini, 499

Genes Involved in Epithelial Differentiation and Development are Differentially Expressed in Oral and Genital Lichen Planus Epithelium Compared to Normal Epithelium, K. Danielsson, et al., 526–530

Clonality and Anatomic Distribution on the Skin of Antibiotic Resistant and Sensitive *Propionibacterium acnes*, H.B. Lomholt, et al., 534–538

The Clinical Spectrum of Lichen Sclerosus in Male Patients – A Retrospective Study, D. Kantere, et al., 542–546

Human Papillomaviruses in Anogenital Epithelial Lesions, M. Kato, et al., 597–599

Primary Syphilis Presenting as Bilateral Nipple-areola Eczematoid Lesions, S. Zheng, et al., 617–618

Bacteriology of Hidradenitis Suppurativa – Which Antibiotics are the Treatment of Choice? Ł. Matusiak, et al., 699–702

Disseminated Cutaneous Infection Caused by *Mycobacterium colombiense*, W. Gao, et al., 727–728

## Infestations and arthropod reactions

Multidisciplinary Approach to *Pyemotes ventricosus* Papular Urticaria Dermatitis, M. Corazza, et al., 248–249

Pain and Hyperpigmentation of the Toes: A Quiz, F.M.S. Sampaio, et al., 253–256

## Epidemiology and socioeconomics

Interventional Three-year Longitudinal Study of Melanocytic Naevus Development in Pre-school Children in Dresden, Saxony, U. Wollina, et al., 63–66

Characteristics and Provision of Care in Patients with Chronic Hand Eczema: Updated Data from the CARPE Registry, C.J. Apfelbacher, et al., 163–167

Factors Associated with Remission of Eczema in Children: A Population-based Follow-up Study, L.B. von Kobyletzki, et al., 179–184

Self-reported Skin Diseases, Quality of Life and Medication Use: A Nationwide Pharmaco-epidemiological Survey in Sweden, M.

Lindberg, et al., 188–191

A Reduced National Incidence of Anogenital Warts in Young Danish Men and Women after Introduction of a National Quadrivalent Human Papillomavirus Vaccination Programme for Young Women—An Ecological Study, N. Sandø, et al., 288–292

Hereditary Angioedema – Consequences of a New Treatment Paradigm in Denmark, A. Bygum, 436–441

Risk of Kaposi Sarcoma Among Immigrants to Sweden, S.M. Mousavi, et al., 476–477

Is Adult Atopic Eczema More Common Than We Think? – A Population-based Study in Danish Adults, G.R. Vinding, et al., 480–482

Chronic Hand Eczema: Perception and Knowledge in Non-affected Individuals from General and Dermatological Practice, V. Letulé, et al., 687–690

Atopic Dermatitis in Israeli Adolescents – A Large Retrospective Cohort Study, Y. Wohl, et al., 695–698

## Psychodermatology and quality of life

Association of Pain Level, Health and Wound Status in Patients with Chronic Leg Ulcers, R. Renner, et al., 50–53

Onychophagia and Onychotillomania: Prevalence, Clinical Picture and Comorbidities, P. Pacan, et al., 67–71

Adult Atopic Dermatitis Patients and Physical Exercise: A Swedish Questionnaire Study, S-B. Lonne-Rahm, et al., 185–187

Self-reported Skin Diseases, Quality of Life and Medication Use: A Nationwide Pharmaco-epidemiological Survey in Sweden, M. Lindberg, et al., 188–191

Effectiveness of Interdisciplinary vs. Dermatological Care of Moderate-to-severe Psoriasis: A Pragmatic Randomised Controlled Trial, J. Schmitt, et al., 192–197

Tumescent Suction Curettage vs. Curettage Only for Treatment of Axillary Hyperhidrosis Evaluated by Subjective and New Objective Methods, C. Tronstad, et al., 215–220

Clinical Characteristics Associated with Illness Perception in Psoriasis, A.K. Wahl, et al., 271–275

Uraemic Pruritus Markedly Affects the Quality of Life and Depressive Symptoms in Haemodialysis Patients with End-stage Renal Disease, J. Suseł, et al., 276–281

Factors Associated with Impaired Quality of Life in Adult Patients Suffering from Ichthyosis, I. Dreyfus, et al., 344–346

Mild Eczema Affects Self-perceived Health among Pre-adolescent Girls, N. Ballardini, et al., 312–316

Quality of Life Assessment of Patients with Scalp Dermatitis Using the Italian Version of the Scalpdex, F. Sampogna, et al., 411–414

Health-related Quality of Life in Epidermolysis Bullosa: Validation of the Dutch QOLEB Questionnaire and Assessment in the Dutch Population, W.Y. Yuen, et al., 442–447

Cutaneous Deliberate Self-harm in Polish School Teenagers – An Interdisciplinary Challenge, A. Gmitrowicz, et al., 448–453

A New Ten-item Questionnaire For Assessing Sensitive Skin: The Sensitive Scale-10, L. Misery, et al., 635–639

Assessing Health-related Quality of Life in Hand Eczema Patients: How to Overcome Psychometric Faults when Using the Dermatology Life Quality Index, R.F. Ofenloch, et al., 658–662
